ACTIVITIES OF CRIME-STOPPERS TEAM IN 2013

JANUARY, 2014

I – INTRODUCTION

The Crime-Stoppers Team ensures that any person with information on the perpetration or perpetrator of a criminal offence (CO), who wishes to stay anonymous, forwards such information to the police by calling the “Crime-Stoppers” hotline - 080 020 505 – which covers the entire territory of Bosnia and Herzegovina. A call to the “Crime-Stoppers” hotline is free, which means that the calls are not charged to persons potentially reporting criminal offences.

The “Crime-Stoppers” guarantee anonymity. The citizens are not required to leave their personal information or any other data which might reveal their identity, except in situations when a person reporting insists and voluntarily discloses their identity and expresses readiness for a direct contact and cooperation, with the aim to disclose information at their disposal. Officials of the Crime-Stoppers Team do not have displayed an incoming call number.

The method of handling telephone calls by the officials of the “Crime-Stoppers” Team is regulated by the Instruction on the Team’s Police Officials Method of Work.

II STRUCTURE OF CALLS IN 2013

U 2013, 4.417. calls to the “Crime-Stoppers” hotline were registered. In the majority of these calls citizens asked for advice on the exercise of their rights (1.660 or 38%). In addition, 1.715 of non-serious calls were registered or 39% of the total number of calls. The lowest and the most important number of calls for the service were those based on which information were developed and sent for further procedure to the competent police agencies and by which the citizens who called the “Crime-Stoppers” hotline provided information on perpetrated criminal offences. U 2013, 1.042 such calls were registered or 23% of the total number of calls.

In their daily talks with reporting persons, the “Crime-Stoppers” Team officials confirm their cooperation with the public and thereby encourage them to share information on perpetrated or planned criminal offences with the police thus contributing to the improvement of the security system of the country.

III STRUCTURE OF DEVELOPED INFORMATION SUBMITTED FOR FURTHER PROCEDURE TO POLICE AGENCIES IN BH (Addendum 1)

In 2013, 1.042 information, i.e. 4x4 reports. were developed and submitted for further procedure to the competent police agencies in BH. Out of the total number of information, 100 were submitted for procedure to the organisational units of SIPA and other information were submitted to the Entity and Cantonal Ministries of Interior, Border Police BH and Brčko District Police. In addition, 30 were forwarded to other law enforcement agencies (Intelligence Security Agency, High Judicial and Prosecutorial Council, Indirect Taxation Authority, Ministry of Justice BH, etc.) and others which are not included in the tables and charts.

A comparative analysis shows that in 2013 there was a reduction by 5% in the number of developed information compared to 2012 when 1.096 pieces of information were developed. The analysis of criminal offences that the information refers to shows a slight decrease of criminal offences in relation to the previous year.

Out of the total number of information forwarded in 2013, 41 were received via the web page - www.sipa.gov.ba.

In this reporting period, due to the end of the EUPM Mission that designed and developed it, as well as certain technical issues, the "Crime-Stoppers" web page ceased being operational. Competent services of the Agency are taking action to establish the web page as soon as possible for a more efficient operation of the "Crime-Stoppers" Team".

IV OVERVIEW OF FEEDBACK SUBMITTED BY RELEVANT POLICE AGENCIES IN 2013 AND COMPARATIVE DATA FOR 2012 (Addendum 2)

Upon checks of the allegations from the submitted reports in 2013, 718 pieces of feedback were received from the competent agencies in BH, which is 9% less compared to 2012 (785 pieces of feedback in 2012), which include the feedback received as responses from previous years while a majority refers to information from 2013.

Out of the total number of feedback, during checks of the allegations, 30 reports were submitted to the competent Prosecutor's Offices on grounds for suspicion of the perpetration of a criminal offence and 53 reports were submitted for evaluation and opinion. In addition, two requests for the verification of responsibility for a violation were submitted.

In the reporting period, for 28 pieces of information, allegations were either confirmed and legislative actions and measures were taken or the investigation was not initiated or they would be useful for future operational work or such allegations were already known to the police agencies.

Based on the checks of the allegations, 38 reports on grounds for suspicion of the perpetration of a criminal offence were submitted to the competent Prosecutor's Office in 2012 while 55 reports were submitted for evaluation and opinion. In addition, eight requests for the verification of responsibility for a violation were submitted.

In comparison with the 2012 statistics, in 2013 there was 20% increase in the number of submitted reports on grounds for suspicion on a perpetrated criminal offence, 3,4% decrease in the number of reports submitted to the Prosecutor's Offices for evaluation and, 75% decrease in the number of submitted violation reports.
